

The Rocker

Music anytime, anywhere...
rain or shine

- Discreet and realistic rock enclosure
- Dual voice coil for even coverage without "hot-spots"
- Available in Granite or Sandstone

Episode: Real Performance for the Real World. Rain or snow, sleet or shine, these speakers are built to withstand the elements of the harsh outdoors or environmentally-challenged areas where moisture and heat can be an issue. The new Episode® All-Weather line is constructed of weather-proof materials that can stand up to any install. Whether it's a discreet in-ceiling model for bathrooms, a surface-mount option for decks and under-eaves, or a more rugged rock speaker for the backyard, these models will perform anywhere.

ES-ROCK-DVC-8

All-Weather DVC Speaker

▶ ALL-WEATHER

The Episode® All-Weather Rock speaker is as realistic sounding as it looks. The perfect addition to any outdoor area, this discreet-yet-powerful speaker is the answer to any outdoor audio project. It's weather-treated rock enclosure will blend in with just about any outdoor environment so your music is heard, not seen.
